April 1, 2004

Sir:

The applicants received a Response to Request for Corrected Filing Receipt dated March 23, 2004. In this response from the United States Patent and Trademark Office, the PTO has indicated that the application to which priority is claimed was filed over a year prior to the filing date of the present application and therefore the referenced application cannot be claimed as domestic or foreign priority. However, the position taken by the U.S. Patent and Trademark Office is incorrect. It is respectfully noted, and as previously indicated, that the present application is first, a continuation of International Patent Application No. PCT/US02/16842 filed May 30, 2002. This International Patent Application (which designated the United States) claims the benefit of United States Provisional Patent Application No. 60/295,426 filed June 1, 2001. Accordingly, the benefit of the provisional application was claimed within a year of the filing date of the provisional application by way of the International Patent Application. A chain of continuity clearly exists

Second Request For Corrected Filing Receipt  
U.S. Patent Application No.: 10/723,208

between the present application and the provisional application by way of the International Patent Application. This is further shown in the copy of the Declaration which was previously submitted and is again attached. Accordingly, the PTO's position is incorrect and needs to be corrected. Applicants again request a corrected filing receipt.

Therefore, please supply the undersigned attorney with a corrected filing receipt for the above-identified application. The undersigned also respectfully requests that the Patent and Trademark Office records be amended to reflect the corrections.

Therefore, it is respectfully submitted that a Corrected Filing Receipt should be issued as follows:

The domestic priority data as claimed by applicant should read: This application is a CON of PCT/US02/16842 filed May 30, 2002 which in turn claims the benefit of U.S. Provisional Application No. 60/295,426, filed June 1, 2001, as set forth in the Declaration (copy enclosed). A copy of the Filing Receipt reflecting this correction is attached. Please supply the undersigned attorney with a corrected filing receipt for the above-identified application.

It is believed no fee is required with this filing. However, in the event fees are required in connection with this paper, please charge our Deposit Account No. 50-0925.

Respectfully submitted,

Luke A. Kilyk

\*OC000000011979147\*

Date Mailed: 02/26/2004

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
